

LIFE SCIENCE PROFESSIONALS

"Nanotechnology-Based Startup: A Unique Path to Commercialization"

Featured Speaker:

Ray Yin
President
ANP Technologies

ANP Technologies, Inc., originally spun out from the US Army Research Laboratory, currently provides cutting-edge technology solutions to customers in the following markets: biological/chemical defense, cancer nanotherapeutics, medical diagnostics, and food safety testing. Dr. Ray Yin will describe how ANP was first founded as a platform technology company, and then branched out into different biotech industry sectors. This resulted in spinning off additional companies such as Fulgent Therapeutics and others. During the talk, Dr. Yin will share stories about his startup journey.

When:

Thursday, June 2, 2016
5:30 - 7:30 p.m.

Cost:

\$25 for [Delaware Bio Members](#)
\$45 for Non-Members

No charge - UD Postdoc/Delaware
Biotechnology Institute Resident
(Sponsored by DBI)

Where:

Delaware Biotechnology Institute
15 Innovation Way
Newark, DE 19711

No charge - UD INBRE Students/Alumni
(Sponsored by Delaware INBRE)

Registration fee includes:
Hors d'oeuvres & one free beverage.
Cash bar will also be available.

Who should attend?

Life science professionals who are interested in expanding their network, and learning from a Delaware entrepreneur whose impact can be seen across several sectors of the bioscience industry.

What to expect?

The Life Science Professionals events bring together scientists, engineers, healthcare professionals, and postdocs from industry and academia and provide a great opportunity to network with peers and mentors.

**MUST be a scientist, engineer, healthcare professional or
postdoc to attend**
